## Initial Sketches:

### Project 4 Initial Sketch Ideas

#### 1. Money Transfer App

Each user has their own garden

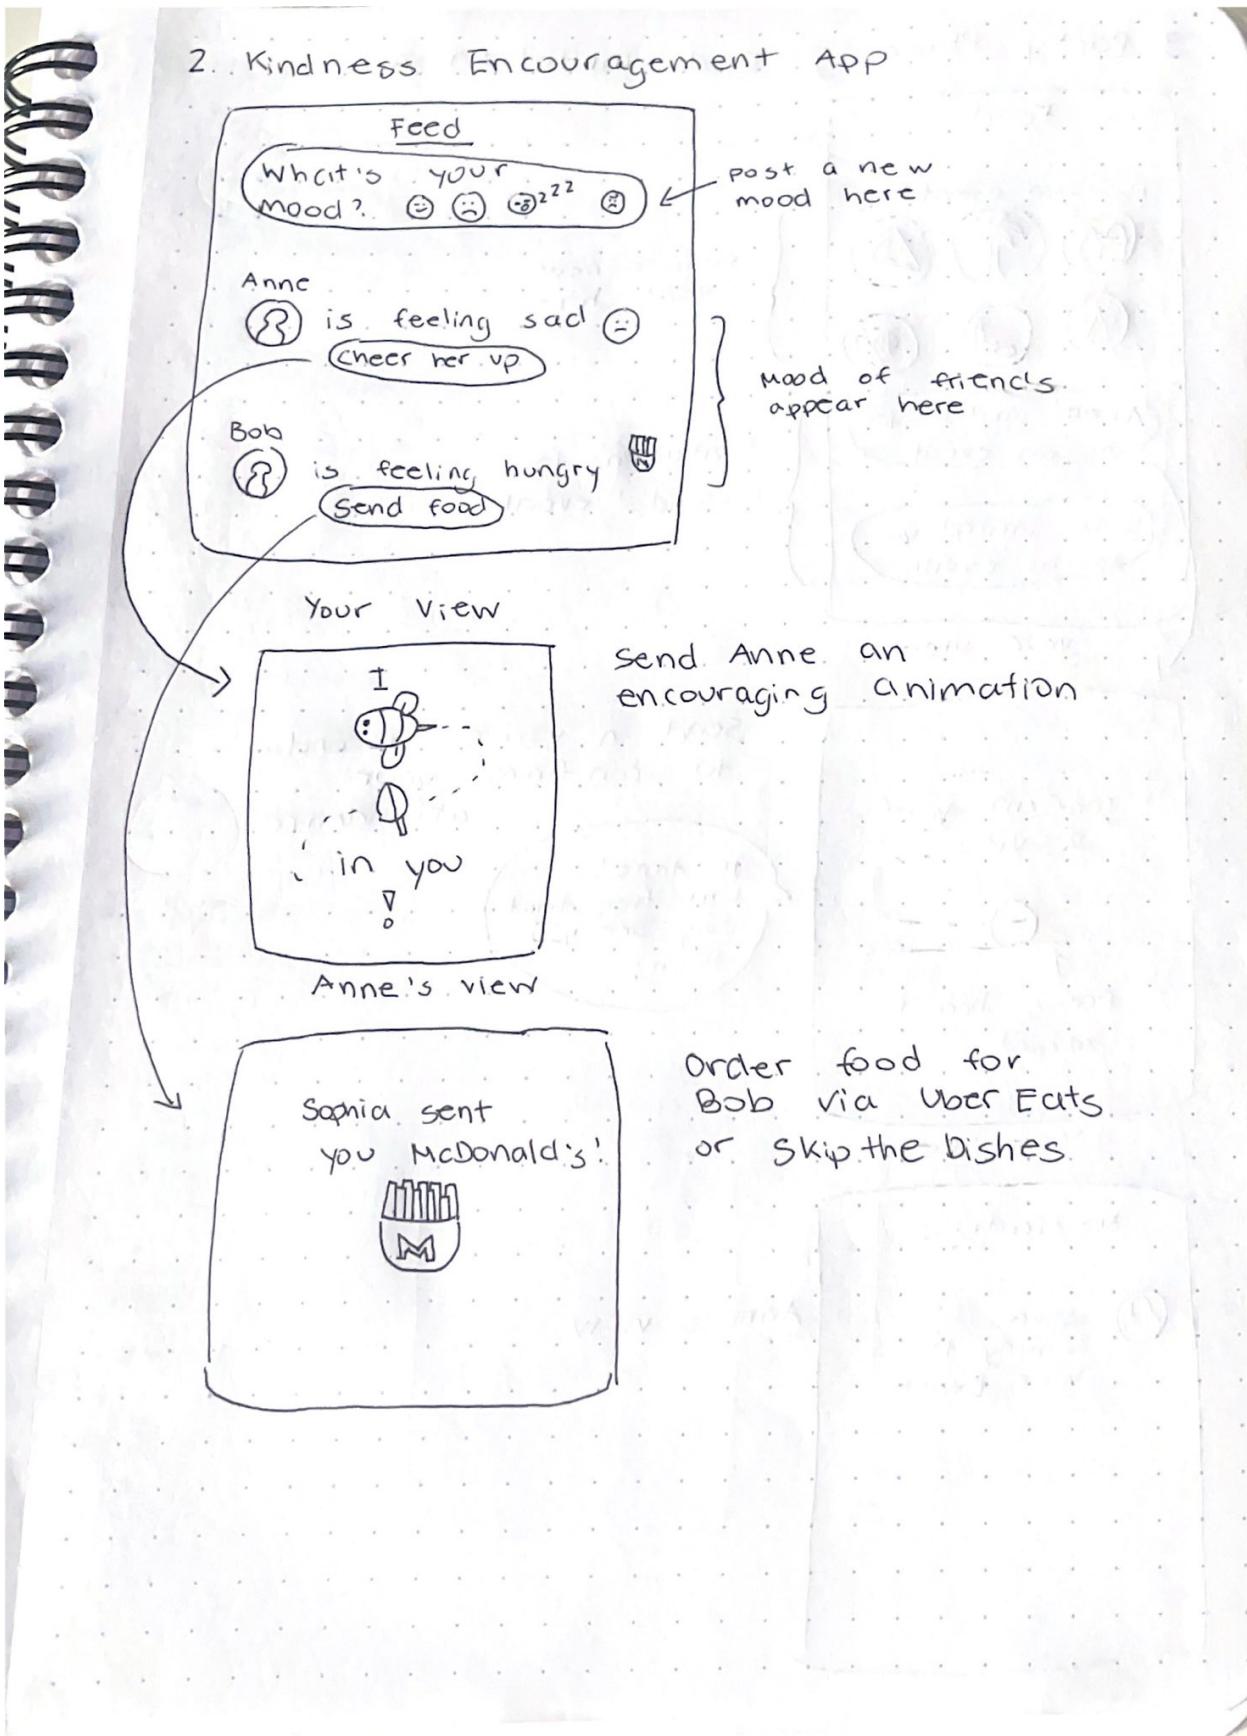

Money requests come in the form of a seed

Complete the request in a timely manner and the seed will sprout into a plant.

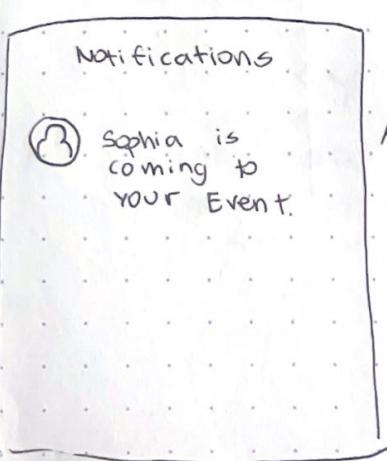

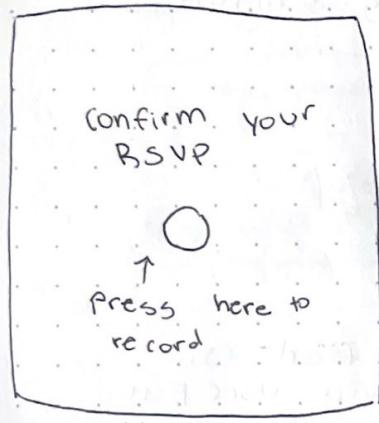

Don't complete the request and the plant will wilt.

## Sophia's Sketches

## 3. Party Planning and Invitation App

Send a voice recording to confirm your attendance.

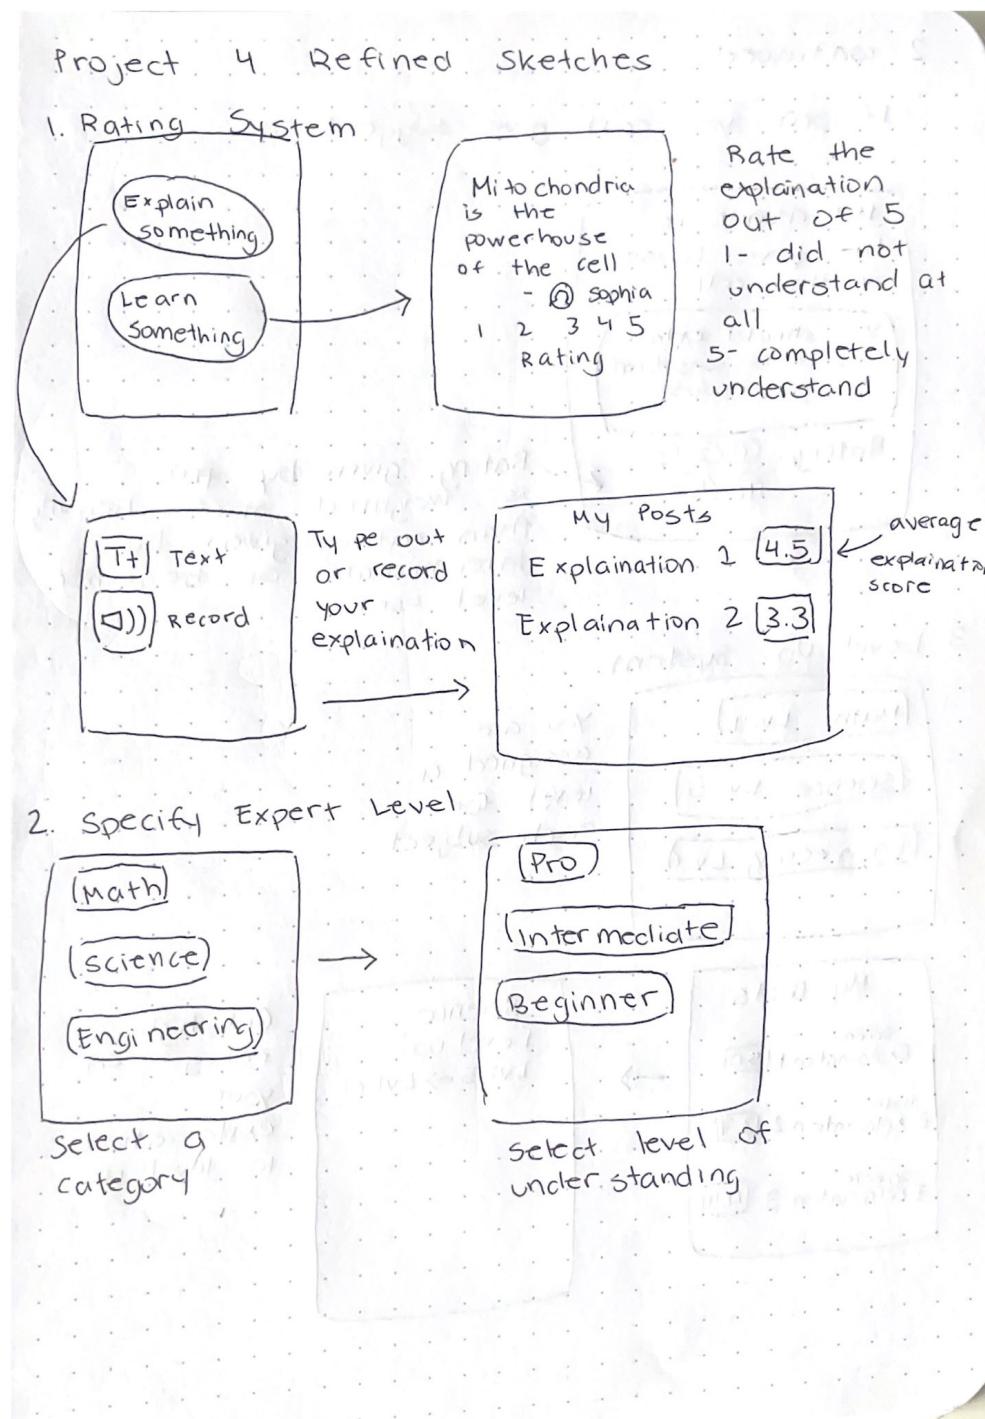

Hi Anne!  
I'm free that day. See you then!

## Sophia's Sketches

1. Cashapp/Venmo but nicer. Rewards people for paying their friends back in a timely manner. Each user is given a virtual garden. Pay friends back in time to grow your garden. Don't pay friends back and your plants will wither. Request money from people sending them a seed. Paying back people is represented by watering the seed.
2. Kindness/Encouragement app - Let your friends know that you're rooting for them by sending them a cute animation or ordering them food.
3. Party planning and invitation app. Broadcast the details of your event to friends and family.

2. continued.

If pro: you can give suggestions.

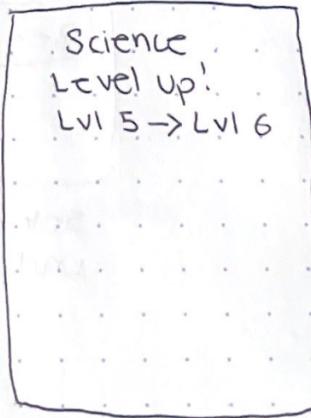

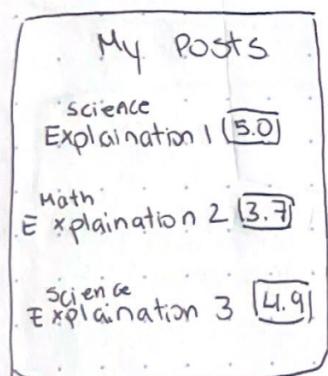

Rating given by pro is weighted more heavily than rating given by intermediate or beginner level user.

3. Level Up System

You are assigned a level for each subject

Get high ratings on your explanations to level up.

## Sophia's Sketches

1. Users can rate explanations out of 5 from 1 - did not understand at all to 5 - completely understand. Users have the option to either record or type out their explanation.
2. Different features are available depending on the expert level of the user. For example, only pro-level users can provide suggestions for explanations.
3. A level-up system where the user can gain level up points by achieving high ratings for their explanations.
